BRIEF ABSTRACT OF LETTER

States that Thummanma Narkankere the only source of water-
to Chitaldroog Town has completely dried up, that at present
water is being pumped up from the Kereavarti Reservoir situated
down and solicits sanction to the grant from State funds as
special case of the sum of Rs 600/- required to meet the cost of
employment for pumping & supplying water to Chitaldroog
as the resources of the Mumpk are too poor to meet the cost

The financial condition of the Chitaldroog
Municipality is ~~very~~ ^{low} very bad as may be
seen from the statement given below -

Receipts -	9,878
Total	26,542
Expenditure	10,942
Closing balance -	15,600

which is less than the prescribed minimum working balance by Rs 1,890.

2 The Sec^y states that no funds can be provided to meet the cost now required, by reappropriation and that the allotments under "Public Works" in the Budget and S.F. budgets have been almost exhausted in carrying out sanitary and other works of an urgent nature and that, no funds are available from these sources to meet the cost of pumping water to the town. He accordingly requests that a sum of Rs 1000 may be sanctioned for this purpose from the State funds. The Budget Board of Chitaldroog have recorded their resolution to the same effect.

Submitted for orders. Branch II has to be consulted.

On 24/2 3 please put up a draft to the Deputy Comm^r enquiring whether he can meet the cost out of the amount

9 The Rev Commr has as yet neither sanctioned nor proposed the grant of funds in addition to the sum of Rs 13500 already allotted to the Chitaldroog. The Depy Commr has, however, as stated by him, applied for a sum of Rs 6500 mostly for the construction of permanent and substantial drinking water wells. As such wells were not allowed to be constructed out of the funds sanctioned for drinking waterwells etc, the Rev Commr submitted the matter to Govt for orders before taking action on the Depy Commr's application for funds. But orders have now been passed^x allowing public wells in cases of absolute necessity and the Rev Commr may therefore sanction some fund. The Rev. Commr may be consulted, however, on the point.

It would be a bad precedent to
allow funds sanctioned for sinking
drinking ^{water} wells in the affected tracts
intended to be chiefly utilized
in non-municipal areas for
paying the & other interest & expenses
for pumping water into the

the Municipal Board to meet
the cost of its fund &
not permit this, an advance
may be given to be adjusted
next year. If this advance
cannot be repaid, as the
obligation to provide drinking

Sir,

I have the honor to state that
owing to the failure of rains during the
last year, the Minamaitakara Tank which
is the only source of water supply to the
Chitalong Town has completely dried up
The supply in the small "Karwar" reservoir
situated below the said tank having gone
down lower than the pipe level, water
is being pumped for the use of the
townspeople by means of a hand pump
since November last. The monthly cost
of Rs 115/- incurred up to date on account
of

Of coolies employed for the purpose, has been met from the provision made under "VIII" P W in the current year's budget of the Chitaldang Municipality. This being an unforeseen and heavy item of expenditure, the Municipality is unable to meet further charges on this account for want of sufficient funds at its credit. Further, I beg to add that there is only two months supply of water in the Reservoir and when this is exhausted temporary wells have to be sunk in the bed of the tank to meet the difficulty for water. The provision made for the current year in the District as well as Municipal Funds under Public Works, is almost exhausted in carrying out Sanitary and other works of urgent nature and no funds are available from these sources.

In these circumstances,
I beg that you will kindly be /

V Proposed by Messrs Anantha Bethy and
to Sreenivasan Nengar that the charges incurred
by the Municipality at present in pumping
water from Karuvanthi Vaddoo for the supply
of the town's people are very heavy and that
as no sufficient funds are available to
bear the charges from this poor Municipality
the charges may be borne from the
Provincial funds till the tank gets
supply.
